

HOME PAGE

Below are the key issues and required improvements:

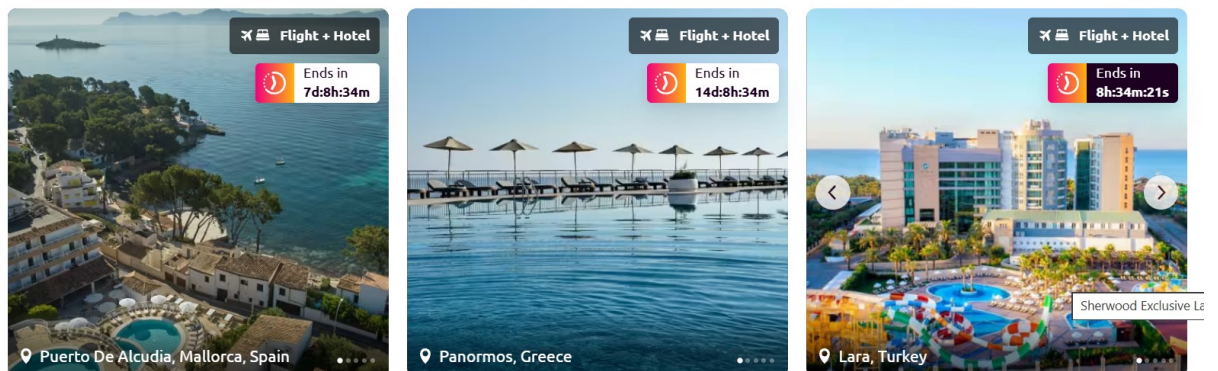

Top Deals on homepage

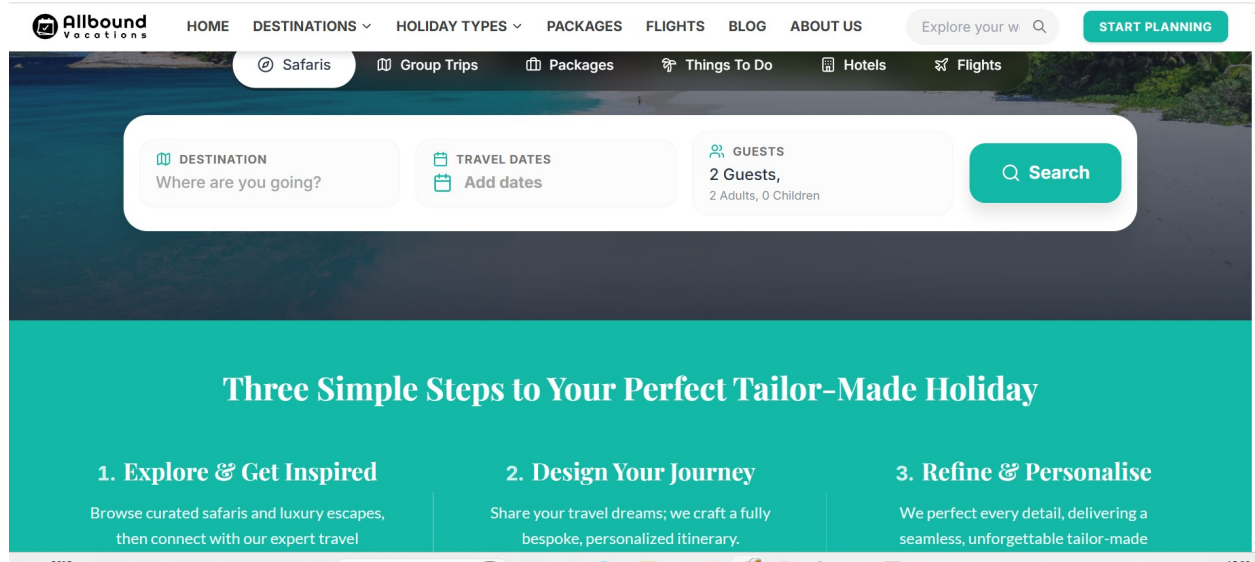

Can you find out why images on this section are not very clear

Is there a way we can add these (flights+hotel+car+activity) icon same as the below:

Family fun for the school holidays

Background Colour

The green colour appearing on backgrounds, buttons and texts should be this **8fbac0**

it's subtler and welcoming.

Request a quote button: **c4a9af**

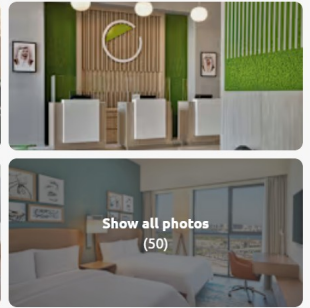

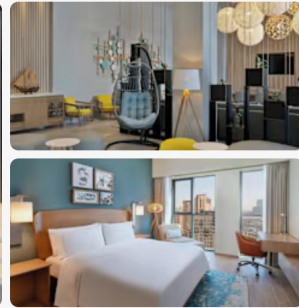

Hotel Pages – Images Not Displaying

- Some hotel images are currently not showing.
- This needs urgent fixing as visuals are critical for user experience and conversions.
- Hotel page gallery to have this design

Element by Marriott Al Jaddaf, Dubai

★ ★ ★ | AL KHAIL RD, AL JADDAF DUBAI STREET 26, Dubai, United Arab Emirates · [View map](#)

9.4 Excellent · 1,492 reviews

Menu Glitch (Shaking on Scroll)

- The navigation menu behaves abnormally when scrolling (shaking/jittering).
- This affects usability and needs to be stabilized.

Full-Width Layout

- Pages should utilize full-width layout for a more modern, premium look and better content display.

"Why Visit Destination" Section

- This should be dynamic/editable from the admin side so content can be updated easily based on marketing focus or destination priority.

Top Experiences Section

- Currently, text is embedded on images and not clearly visible, making it look cluttered.
- We need proper text overlays or separate text sections for clarity and responsiveness.

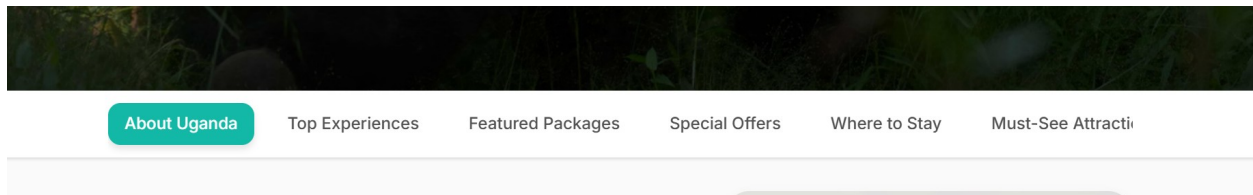

Group Trips (Admin Issue)

- The Group Trips function in the admin panel is not working.
- I'm unable to add or manage content, this needs to be fixed so we can upload and sell group packages.
- Also add it to top menu items

Destination Page (eg Uganda)

Content flow>>>

- Uganda Overview
- Why Visit Uganda – dynamic content
- Best time to visit
- Top Things to Do
- Travel Experiences
- Featured Uganda Packages
- Uganda Travel Deals
- Accommodation
- Uganda Travel Guide – new
- Travel Tips & FAQs
- Blog
- Simimar Destination Destinations

How do we make sure that these menu items are visible on same screen?
Can we have 2 lines?

Destination Sub-Navigation Bar

Should be displayed consistently across all destination-related pages that open independently after load more button, including:

- Top Experiences
- Featured Packages
- Special Offers
- Where to Stay
- Must-See Attractions
- Group Trips

Sample : <https://www.scottdunn.com/uganda>

This navigation bar must repeat on each individual page within the destination section to ensure seamless user experience and easy movement between sections.

Page Descriptions

Kindly assist in updating the Destination Sub-Navigation pages to include a dedicated section/area for descriptions on each individual page. This applies to all pages that open independently after clicking the “Load More” button, including:

- Top Experiences
- Featured Packages
- Special Offers
- Where to Stay
- Must-See Attractions
- Group Trips

Adding description fields on these pages will allow us to input SEO-friendly content, improving search visibility and providing better context for users.

Best Time to visit :

Kindly update the **"Best Time to Visit" month section** as follows:

1. Reduce Box Size

- o Please reduce the width and height of each month card to approximately **50% of the current size**.
- o The goal is to make the section more compact and less bulky.

2. Layout Adjustment

- o Arrange all 12 months in a **single horizontal row if possible**.
- o If screen width does not allow, limit it to a **maximum of 2 rows** (not 3 as it is currently).

3. Responsive Behavior

- o On desktop: Aim for **1 row (scrollable if needed) or 2 rows max**.
- o On tablet/mobile: Ensure clean stacking (2 rows or swipe/scroll).

The overall goal is a **cleaner, more compact, and modern layout** with improved user experience.

Great Rift Valley, Kenya

Average temperatures (Celsius) and rainfall (mm)

Travel Guide for Destinations:

I'd like the **Travel Tips section** on the destination pages to follow the same layout and structure as the below example, should appear after accommodation

Use categories like:

- Good to Know
- Things to Do
- Going Out
- Shopping
- Beaches
- Food & Drink
- Sports
- Events
-

Travel tips for Dubai

Good to know Things to do Going out Shopping Beaches Food & Drink Sports **Events**

Events to enhance your Dubai holidays

Dubai's calendar is packed with events that cater to every interest, from cultural festivals to world-class sports events. Here's a glimpse of what you can experience during your Dubai holiday:

Dubai Shopping Festival

Taking place from late December to late January, this citywide festival is a shopper's paradise. Expect incredible discounts, live concerts, and fireworks.

Dubai Food Festival

Celebrating Dubai's emergence as a gastronomic destination, this festival in February-March showcases the city's diverse culinary offerings with food tastings, chef masterclasses, and themed feasts.

Dubai Jazz Festival

Held in February, the Dubai Jazz Festival attracts international artists and jazz enthusiasts to the city for several days of soulful performances.

Art Dubai

March sees Art Dubai come to life, featuring works from local and international artists, galleries, and cultural events, highlighting Dubai's growing art scene.

Start Planning

<https://www.timbukuttravel.com/enquire/step/1>

Multi-Destination Trip Setup

We need to update the backend to support multi-destination trips. Some trips are not limited to one country. We must be able to create a single trip that includes multiple destinations, for example:

- Kenya & Tanzania
- Kenya, Tanzania & Zanzibar

Our Partners & Affiliations

Under this section, display three sub-sections:

Hotel Partners

- List or logo grid of hotel partners

Airline Partners

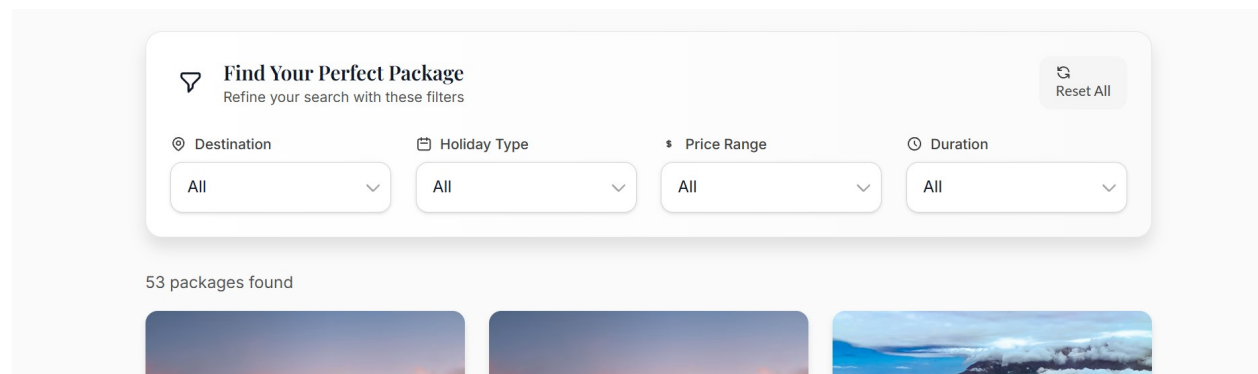

- List or logo grid of airline partners

Industry Affiliations

- Travel associations, tourism boards, certifications, etc.

Packages landing Page

We need to add a **text introduction section on the Packages Landing Page** to improve SEO and overall page presentation.

This section should:

- Improve search engine visibility (SEO)
- Provide a short introduction to travel packages
- Make the page feel more complete and professional

Affiliate program

- Please see separate document

SEO & Revenue Focus

- We need to optimize the site for strong search engine visibility (SEO) so we can attract organic traffic and generate bookings.
- This includes proper page indexing, meta tags, keywords, fast loading speeds, and mobile optimization.
- The goal is to make the site rank well for travel-related searches and convert visitors into inquiries/bookings.
